

Second International Conference on

**ARTIFICIAL INTELLIGENCE
& COGNITIVE COMPUTING**

AICC - 2021

17-18 December, 2021

organized by
MLR INSTITUTE OF TECHNOLOGY
(UGC AUTONOMOUS)
www.mlrinstitutions.ac.in

Track 1: Artificial Intelligence

Soft computing
Intelligent user interfaces
Bayesian networks
Neural networks
Natural language processing
Planning and scheduling
Machine learning
Uncertainty in AI
Knowledge representation and reasoning
Model based reasoning
Ontologies
Data mining and data science
Intelligence and cyber security
Ambient intelligence
Pattern recognition
Evolutionary computing
Cognitive systems
Deep learning
Agent models and architectures
Web intelligence
Cognitive robotics

Track 2: Cognitive Computing

Cognitive computers
Medical informatics
Cognitive machine learning
Structural health monitoring
Cognitive semantics of big data
Bio-informatics
DNA and genome cognition
Image/video processing
Neurocircuit theories
Behavioural recommendations
Cognitive knowledge acquisition
Complex/Fuzzy cognitive systems
Cognitive process models
Computing with words
Cognitive inferences
Concept and semantic algebras
Cognitive man-machine communication
Mathematical engineering of AI
Cognitive internet
Brain inspired systems
eBrain models
